

Notice to all students

2019

Participate in the 2019 Library User Experience (UX) Survey

The Library is conducting a User Experience (UX) Survey, aimed at all registered full-time, part-time and distance students at NUST. The main purpose of the survey is to find out how you experience the Library's services and facilities. Additionally, it aims to identify areas that need improvement and to gather suggestions.

Therefore, you are all invited to participate in this exercise. The data collected will be treated with confidentiality, and strictly used for purposes of the survey.

By participating in the survey, you will help shape quality of the Library's services and in that way, contribute to improving research and innovation initiatives at the University.
